

sinclair is abusing its public trust. It is trying to sway the election in favor of President Bush and does not behave in the public interest, convenience, and necessity, the paramount standard under which a licensee must act. Neither "9/11" nor "Stolen Honor" should be aired on a broadcast station so close to an election. I hope that all SBG stations will be challenged and will lose their license at renewal time if they air the anti-Kerry non bona fide news documentary.
